MOSFET REGULATOR FOR HONDA CBR 600 F HURRICANE CRB600 / INTERCEPTOR VFR 700 - VTR 250 / VF 750 MAGNA 1986-1990 1996- 2003

KEY FEATURES

Brand new mosfet voltage regulator rectifier direct replacement

Improved heat sink and charging capabilities

Higher grade of electric components

All products shipped are tested

DESCRIPTION

Battery condition is extremely important. No voltage regulator can work correctly with a bad or weak battery. **Always fully charge your battery before performing any charging system tests or replacing parts.** If there is any doubt, have the battery load tested or replaced.

Why use Mosfet Enhanced technology?

Runs cooler

Runs much cooler than the traditional Shunt voltage regulator rectifier.

Saves gas

Less load on the stator, less work, less fuel is used and you save.

Regulated energy

The power charging your battery is steadier and smooth.

**Extended battery life**

Extends the battery's life and cold cranking capacity.

**More engine power**

Removes stator load resulting in more engine power.

**Optimized power**

Optimize power delivery by switching the stator coils on or off.

**With *ENHANCED TECHNOLOGY* design**

This product is an advanced design that lowers operating temperatures for extended longevity and better performance than the OEM part.

Brand new Mosfet Voltage Regulator Rectifier**STOP BURNING YOUR REGULATOR RECTIFIER !**

It is time to update or replace your voltage regulator with the advanced MOSFET type.

It runs cooler than all OEM diode style regulators. In addition, this rectifier has overheat protection, rather than burn up it will simply turn off for a while and cool off.

Direct replacement to your original unit

Plug-and-play, direct fit, easy installation

The quality exceeds the OEM equipment

Improved heat sink and charging capabilities

Higher grade of electric components

All shipped products are tested

*All item pictures are accurate, if in doubt, do not hesitate and compare our item to your original part.

SPECIFICATIONS

Dimensions :

Width : 95 mm

Length : 90 mm

Height: 30 mm

Fixation holes center to center : 75 mm

Wires length: 575 mm and 550 mm

Other specifications :

Number of plugs : 2

Number of pins : 7

Minimum Charging Voltage: 14.5V +/- 0.5V

Maximum Charging Current: 50A/500W

Open Circuit Voltage: <15V

Operation Temperature: -20 ?C to 85 ?C

INSTRUCTIONS

Before installing your new regulator/rectifier:

Check the AC output of the stator.

Replace any burned or corroded connectors on stator and regulator/rectifier

Check and repair any melted wiring.

Use hi-temp dielectric grease on all connectors.

ITEM DELIVERY

Our multiple North American locations, from which we ship our products, allows us to deliver 99.7% of our orders within the specified time period. If your

item is not available in our main Colorado facility, we still guarantee that your order will be delivered within the specified time period.

If your item is not delivered within this time period, we will offer you a 5.00\$ discount on your order. This guarantee applies to shipments delivered in the 48 continental USA states, excluding PO boxes.

DUTIES & TAXES

International Buyers:
Import duties, taxes, and charges are not included in the item price or shipping cost. These charges are the buyer's responsibility.
